

## Turnstone Geological Services Limited

P.O. Box 1000, Campbellford,  
Ontario, Canada K0L 1L0  
<http://www.turnstone.ca>  
Tel / fax (705)-653-5449  
[turnstonerocks@yahoo.ca](mailto:turnstonerocks@yahoo.ca)

**Graham C. Wilson, Ph.D, P.Geo (ON)**

### Principal Services & Products

- Mineral Exploration & Property Evaluation, *including*
- Prospecting, Sampling, Drill Supervision and Core Logging.
- Mineralogical and Materials Science Studies, *including*
- Petrography of Rocks & Ores in Transmitted and Reflected Light
- Microprobe Analytical Techniques
- Interpretation of Whole-rock, Trace-element and Mineral-chemical Data
- Research on many Deposit Types and Geological Environments, including lode, skarn, epithermal and porphyry gold; magmatic nickel-copper-platinum; MVT zinc, etc.

### Achievements & Resources

- **>100 clients** in industry, government and academia, 1985-
- **>500 Turnstone reports** completed, plus numerous publications and presentations
- **4,000 detailed petrographic descriptions**
- **>4,000 reference samples** in searchable catalogues, plus many more in additional collections, covering many rock and mineral species and most deposit types
- **In-house databases** and other resources, e.g., the **MINLIB Earth-Science Research Bibliography** (>88,800 records) and its derivatives, with strengths in many topical geographic & geopolitical themes (>111,500 records in **MINLIB & WORLD**, Feb. 2019 )
- **Web site** (2001-) with many features, e.g., 216 linked “Rocks of the Month” (Feb. 2019)
- **Projects on six continents, through ~70 countries**
- Extensive **fieldwork**, e.g.: regional prospecting and other surveys; old mine sites; the boulder find (with Dr. Gerald Harper) and Magma Metals’ later drill discovery of the “Thunder Bay North” conduit-hosted, platinum-rich, Ni-Cu-PGE deposit, N.W. Ontario
- **Office and lab facilities** – extensive libraries, reference rock and thin-section suites, petrographic and binocular digital photomicrography (Jenoptik cameras), magnetic susceptibility and specific gravity measurement, LW/SW UV lamps, metal detectors

### Long-term Specialities

- Petrography & ore mineralogy (info for clients: <http://www.turnstone.ca/petquo.pdf>).
- Characterization of Geological, Metallurgical and other Materials, *including*
- “Rarities”: meteorite classification; fulgurites; geoarchaeology (chert, metals, slags, etc.)
- Geographic strengths: the Americas, Indian subcontinent, Europe, and more
- Photography & photomicrography
- Broad studies of local geology and natural history
- Research, writing and editing based on all the above resources
